The valuable tissue-building elements in this food make it an important brain and muscle food, (for the want of such nourishment, many invalids are slowly passing out of life.) When a cigar burns on the bias, throw it away—it's spoilt. You don't get the proper aroma as you smoke. Unless you have an exact proportion of wrapper and filler, the tobacco grows rank. That's why it's so important to get workmanship; that's why you must have a long filler if you want a long smoke. The

is well-made—it is well-blended, it burns evenly and it tastes right right to the end. The leaf is mild and fragrant—that's because it has been thoroughly matured. The aging removes the harshness. You can smoke twenty a day and your nerves won't know it. In every case in town and head in every case.

OLD BLACK MAMMY TO GET NATIONAL MONUMENT

Galveston, Tex., May 4.—The organization of Texas citizens having charge of the movement to erect a monument to the "Old Black Mammy of the South" has decided to make it a national tribute.

It is intended to raise about \$1,000,000, and perhaps limit individual subscriptions to \$1, although offers have been made to contribute \$500 to \$1000 for such a fund.

T. J. Groves, president of the Galveston National bank, is chairman of the organization.
